PROFESSIONAL EXPERIENCE

Software Developer

Askipo [🔗](#)

06/2022 – 06/2023

Istanbul, Turkey

- Developed and maintained frontend features for hybrid mobile and web apps, building reusable UI components and responsive layouts. Collaborated closely with graphic designers using Figma to translate designs into a consistent UI across platforms. Primarily worked with Angular and Ionic frameworks, writing TypeScript and SCSS. Used Firebase for backend services and realtime data. Managed codebase contributions through Git in a team environment.

Game Developer

DotFour Games [🔗](#)

10/2021 – 05/2022

Istanbul, Turkey

- Developed hyper-casual game prototypes in Unity at DotFour Games (Games United), a studio partnered with Rollic Games. Collaborated remotely with a cross-functional team of 3D artists and game designers, implementing core gameplay mechanics and iterating rapidly based on performance data. Prototypes ranked in the top 3 across 10+ submissions from all Rollic partner studios in key publishing metrics including CPI, CTR, and retention.

PROJECTS

Custom Game Framework in MonoGame [🔗](#)

- Developed a custom game framework in MonoGame (C#) from scratch, with a purpose of adopting engine-agnostic game development with covering topics such as gameplay mechanics and systems, AI and user interface. Also made a blog series about this framework. [🔗](#)

Data Structures and Algorithms in raylib [🔗](#)

- Projects built with C++ and Raylib to practice data structures and algorithms topics related to game development such as entity-component system and spatial partitioning.

Gameplay & Tools Programmer

METU GatesJam 2026

- Implemented core gameplay systems, a tooling pipeline, and a ScriptableObject-based data-driven architecture with Custom Editors in Unity, enabling non-programmer team members to create and modify game content independently.

SKILLS

Languages:

C#, C++, GDScript, TypeScript/JavaScript

Engines & Frameworks:

Unity, Godot, MonoGame, raylib, Angular, Ionic

Tools & Services

Git, Firebase, Figma

EDUCATION

Anadolu University

Associate of Science in Game Development and Programming

2025 – Present

Eskisehir, Turkey

Zeytinburnu Vocational High School

Information Technologies, Web Programming

09/2019 – 06/2023

Istanbul, Turkey
